# 02

You can save money on kiosks and terminals with roving mobile customer service agents, powered by TA Airport Software.

# 03

Digital airline vouchers given to customers have a set expiration date that sends the value back to the airline if not used, allowing you to control your costs.

# 04

Our TA Connections support team is proficient in 25 diverse languages, enabling us to provide passengers the assistance they require in the language they prefer.

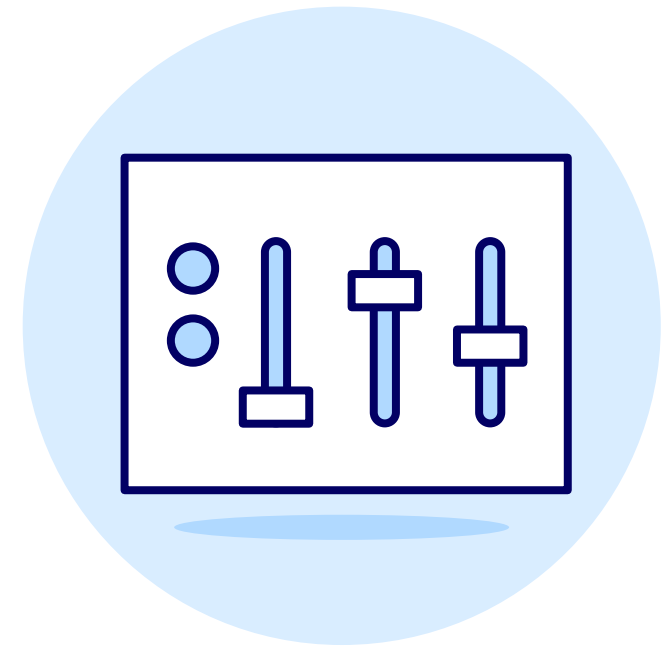

# 05

We can automate up to 97% of crew logistics processes in real time.

# 06

We have a white labeled, self-service portal that allows travelers to manage disruptions to their travel, so they have a personalized solution coming directly from you, their airline.

# 07

Our invoicing system leverages a proprietary algorithm that handles adjustments with hotel vendors, so you don't overpay.

# 08

TA Connections provides a mobile crew management application with integrated GPS tracking, ensuring the safety of your crew.

# 09

We will be at 20 different events around the world in 2023.

It's the perfect opportunity to meet us in person!

# 10

TA Connections is constantly improving and innovating our solutions, and this year we'll introduce a mobile app, virtual wallet, ticketing switch, and more.
