

# Solutions that transform aviation operations

Over 140 airlines rely on TA Connections for crew and displaced passenger lodging and logistics

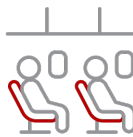

Airlines use TA Connections to help **control costs, simplify management, and improve support.**

## Digital, Mobile, Smarter, Connected

### CREW

End-to-end automation of the crew layover process, providing cost saving hotel and transport bookings

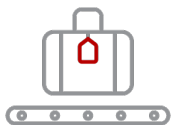

### PASSENGER

A proactive disruption system managing flight rebookings, hotels, meals, compensation, and transportation

### AIRPORT

Transform passenger service and grow ancillary revenue with a connected, mobile airport operation center

### RAMP

Improve safety, save time, and reduce costs with digital baggage reconciliation integrated with the aircraft

### TURN

A fully integrated application delivers transparency into all turn tasks to improve on-time performance

### PAYMENTS

Delivering digital invoicing and payment solutions with compliance and discrepancy auditing for billing accuracy

### 24/7 SUPPORT SERVICES

Proactive Support Services around the clock and around the world. Deliver 24/7 customer support with 25+ languages spoken by our support team on any given shift.

# Digital, Mobile, Smarter, Connected

Complete, end to end airline solutions that streamline operations and reduce costs

## Solutions that transform aviation operations

### For Crews

Gain instant access to intelligent applications:

- Leverage buying power to maximize lodging savings and terms
- Automated hotel & transport bookings, fully integrates with any airline CMS
- Eliminate calls to your ops center through our self-service mobile and web platforms

### For Passengers

Disruptions happen. TA Connections is the solution. Effectively manage passenger IROP events:

- Access real-time availability to highly discounted global hotel, transport and flight inventory
- Reduce service staff workload by leveraging our Digital Disruption Management suite
- Improve passenger experience and reduce agent lines with contactless vouchers, automated customer communications

### Airline Operations

Transform your operations with industry-leading mobile solutions:

- Paperless ramp operation, digital baggage reconciliation and real time flight information
- Digital cabin: digital passenger rich info, inflight menus, integrated POS, contactless payments
- Improved on time performance for arrival, turnaround and departure tasks
