# TA Crew Hub

**TA**Connections

## Smarter. Digital. Mobile. Connected.

TA Crew Hub is your all-in-one crew logistics management system that digitizes, automates, and streamlines crew management processes.

### Crews need rest.
### Airlines need automation.

With TA Crew Hub, airlines save on costs, streamline operations, and improves your crew's layover experience. we leverage a configurable rules engine to automate over 97% of crew layover logistics management processes.

### Compatible with your existing software

Implementation is not complex. TA Crew Hub connects to over 25+ different Crew Management Systems (CMS), including homegrown and manpower planning systems, and has the ability to provide two-way web services.

### Flight scheduling that considers crew needs

Flight scheduling is complex enough. TA Crew Hub has a what-if analysis tool that allows you to achieve the lowest crew layover costs by effectively matching contract terms to flight schedules. It helps you stay compliant with FAA regulations for crew layovers.

### Securing the best price powered by our Artificial Intelligence

What makes TA Crew Hub truly unique is continuous market sourcing. Near constant market monitoring and negotiating means airlines get the best rates.

### Fast and flexible access to your real-time dashboard

TA Crew Hub provides immediate access to crew schedule, layover and invoice data that allows you to make better business decisions. Additionally, our mobile app provides near real-time hotel and transport data to your crew members.

# Benefits

## Operations Management

An industry leading operational management tool, TA Crew Hub provides transparency and visibility to crew layover requirements.

## E-Billing & Reconciliation Module

The web-based e-billing and reconciliation module provides accurate, transparent, and efficient processing.

## Analytics & Reporting

An extensive centralized reporting and analytics suite provides access to the information your team needs to make the best decisions for your business. Ultimately, it delivers key access to operational and financial based analytics.
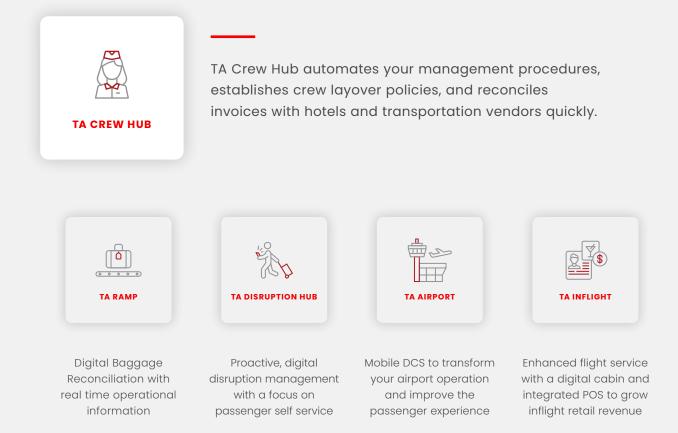

## Vendors (Hotels & Transportation Providers)

TA Crew Hub provides hotel and transportation vendors a web-based, automated communications platform, allowing them to manage reservations, changes, and modifications in real-time.
